

## 2011 Retail Seed Rack Program

Thank you for choosing Sustainable Seed Company for your garden, flower and herb seeds! We are a small seed company focused on sustainable growing and business choices. Our seeds are **100% USA grown** – the money spent on these seeds puts American workers in a job.

Because every package of seed has been through at least three different people's hands – from the printer to the seed packer to the shipping manager, we are able to maintain the *highest quality* of product.

This year we offer over **300 varieties** of seed from our vegetable, flower, herb and grain seed. We also offer more than 125 types of seed from our bulk wholesale list.

Each seed package is in full color with a photo, the variety name, historical and descriptive information, and planting instructions. Many seed companies put fewer seeds in their retail rack packages – we do not. We believe each person who buys our seed packages should get the same high quality product; therefore we put the full retail amount of seeds in **EVERY** package we sell. We suggest a price of \$1.99, but have left off pricing information for your flexibility.

All of our seeds are Heirloom and untreated – we do not believe in the use of pesticides or chemical treatments. Some are organic, but all are grown with organic practices – many going beyond those requirements. We strive to grow and improve the quality of our soil and wildlife, which is why we do not use harmful chemicals or fertilizers in our growing methods.

### ***Seed Racks***

We offer a seed rack that can hold up to 100 different varieties, but will best accommodate either 25 (front only) or 50 (front and back) varieties. We do not markup the cost of the rack because we value your business and want you to succeed. We ship them to you unassembled to keep down shipping costs and with instructions as well as a link to a video showing how to assemble the racks.

We are here to support you and your business – just as you are supporting ours. If you have any questions or we can be of help in any way, don't hesitate to give us a call!

Thank you!

**Confirmation:** Orders are taken over the phone or via email and will receive a confirmation form for final approval with the credit card authorization form.

**Payment:** Payment can be made by credit card over the phone. Because we are a small company, we cannot afford a collections agency and therefore only accept credit card payments unless otherwise agreed upon.

**Delivery:** We try and get seeds out as fast as we can, but large orders can sometimes take up to a week to mail out. Racks can take up to 2-7 days to ship depending on holidays and weather. We ship all packages via US Post Office Priority mail with delivery confirmation and tracking.

**Returns:** Orders that are refused or returned to Sustainable Seed Company will be charged a 20% restocking fee.
